

# Press Release

## Expose hidden contamination with Enviroscreen's ready to use Sponge Tub kit

Technical Service Consultants (TSC) Sampling Sponge Tub offers end-users a convenient all in one monitoring kit that's a quick and simple method for confirming the presence of living microorganisms on any critical surfaces, including environmental monitoring or HACCP validation.

- **Uncover** - hidden contamination exposed
- **Neutralise** - disinfectant residues gone
- **Save time** - total sampling solution
- **Ready** - pre-moistened for convenience
- **Easy** - sample large areas quick
- **Quick & safe** - no scissors needed
- **Convenience** - glove included
- **Superior** - sponge collection & release
- **Invaluable** - HACCP & routine testing
- **Secure** - safe sample transport
- **Strengthen** - brands protected

Ideal solution where disinfectants & sanitisers are used, including food production surfaces & transport, clinical & veterinary infection control, pharmaceutical & cosmetics facilities and valuable in cleaning validation, protecting your brand & preventing costly recalls.

Also available for direct meat surface sampling (TS/15-A:NaCl).

All sampling devices conform to ISO 18593:2004 requirements and are gamma irradiated for assured sterility.
